

Google @ UC San Diego

Thursday, January 21, 2010

Fung Auditorium

(Powell Focht Bioengineering Building)

At Google, we do more. A lot more.

Come learn about Google and meet our Googlers at these exciting events:

Tech Talk: Reinventing the Desktop
Speaker: Brad Chen, PhD
5:00 - 6:00pm

J. Bradley Chen manages the Native Client project at Google, where he has also worked on cluster performance analysis projects. Prior to joining Google, he was Director of the Performance Tools Lab in Intel's Software Products Division. Chen served on the faculty of Harvard University from 1994 -1998, conducting research in operating systems, computer architecture and distributed system, and teaching a variety of related graduate and undergraduate courses. He has published widely on the subjects of systems performance and computer architecture. Dr. Chen has bachelors and masters degrees from Stanford University and a Ph.D. from Carnegie Mellon University.

Geek Trivia 6:30 - 7:30pm

Grab your friends for an exciting game of trivia like you've never played before!

If you have questions about job opportunities, please feel free to contact jbagley@google.com.
We look forward to meeting you!
